# HYDRO-MASSAGE – GENTLE REGENERATION

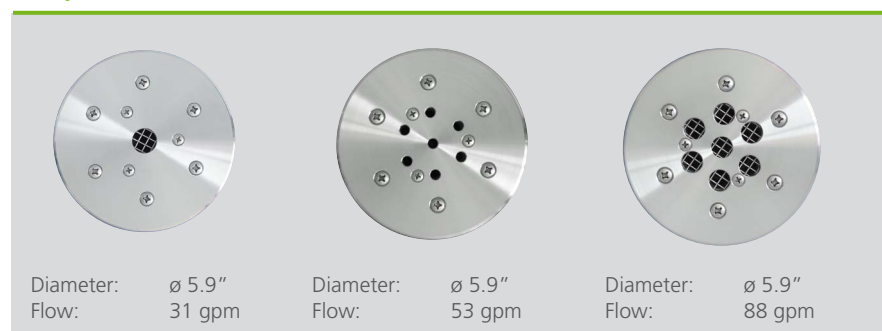

The hectic daily routine is over, stress is banished – that’s when it’s high time for complete relaxation. The magical answer to persistent sensory overload is hydro-massage. Body, spirit and soul rediscover their natural harmony. Water and air currents gently massage the neck, shoulders, back, posterior and legs and act on the most important foot reflex zones.

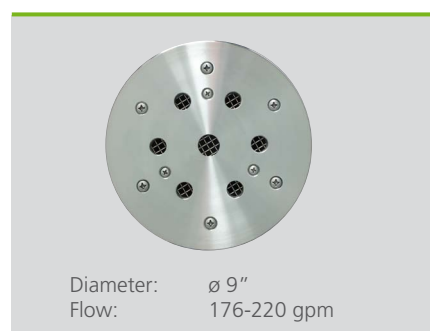

Tissue and joints lying deeper below the surface also enjoy these benefits. hydro-massage from *fluvo*® is a unique concept with innovative jets; the ingenious combination of water and air soothingly refreshes the body without any effort. hydro-massage from *fluvo*® is a practical investment in your health and a substantial contribution to the quality of your life. It also brings fun into swimming in your pool.

## MASSAGE NOZZLES

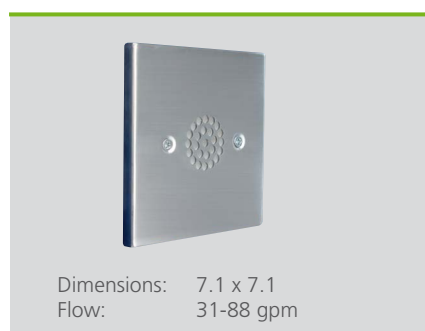

### compact

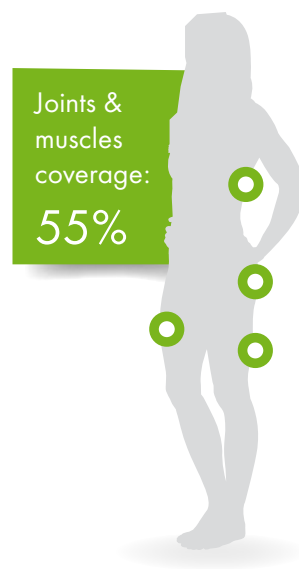

### Rio Grande

### Q-Line brushed

## EFFECT ON THE BODY

All nozzles can be used in any combination. Wall, floor, seating or stairs – everything is possible. Create your own hydro-massage individually and without compromise.
