THE WATER CURTAIN EFFECT

cobra® stainless steel: Elegance and the perfect feel. In free fall, the water veil is similar to the examples in the natural world that inspired it. Water curtain and water veil combine to become an iconic visual unit and a magical attraction. With their wide opening, curved veils create a broad, continuous water curtain all the way down to the water's surface.

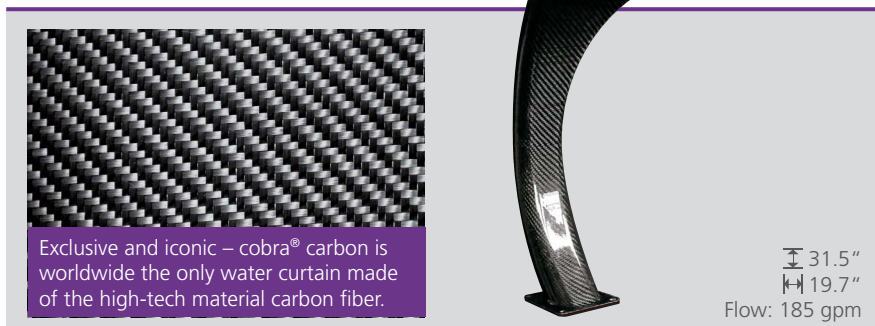

cobra® carbon: Using high-tech carbon fibre, *fluvo*® manufactures the, most beautiful' of the beauties: with its sleek base and its wide opening, cobra® carbon is a fantastic water curtain for any pool. Harmonious and aesthetically pleasing to the eye, providing relaxation and wellbeing when used – all this allows you to switch off the stress of everyday life.
